Dear Mr. Schuelzky:

RE: Hazardous Waste Spill

As per our telephone conversation of Friday, April 13, we have cleaned up this spill and placed the oil and contaminated soil in drums. Also, the spill which occurred while filling the Tanker Truck has been cleaned up and the material will be handled in the same manner. I will hold this material on site until I receive a special waste authorization. In addition, a small amount of oil (20-30 gal.) entered our reservoir which supplies water for our sprinkler system. This was contained and has been removed.

Thank you for your assistance. If you have any questions, feel free to contact me.

Sincerely yours,

Dick Adkins  
Safety Supervisor
